San Francisco State University
College of Science and Engineering
Student Project Showcase

Judging and Scoring Criteria
A 5-point scale will be used for each of the four categories

    0: missing   1: weak   2: fair   3: average   4: good   5: excellent

1. Technical Content
   - Application of scientific, mathematical and/or engineering concepts
   - Technical strength/depth
   - Appropriate methodology
   - Quality of work

   (If a judge is not familiar with your particular technical area, the rating of this category will be based more on how well the student can answer the questions, as well as the judge's general impression of the project)
2. Completeness
   - Clarity and consistency in objectives and conclusions
   - Conclusions supported by data
   - Sufficient amount of information and data
   - Appropriateness of information and data
3. Presentation
   - Logical organization
   - Attractiveness and neatness
   - Legibility
   - Easiness to follow
   - Word choice and grammar
   - Answering questions to the point
   - Demonstrating competency when discussing the project
4. Significance
   - Originality
   - Importance/general interest
   - Complexity
   - Application/Potential impact
